**Greetings!** I realized it just didn't feel quite right to not give you some insights into the month while we're busy creating the new offering. So welcome to *The Monthly Beacon!* TMB is a concise overview of the month's key events and influences akin to the *ACM Beacon* but with some changes (such as the box on page 2). Enjoy!

*In Light ~Elizabeth*

**1: Overview: Key themes & areas of focus for the month:** February brings a time of adjusting to a new cycle that is still being unveiled. There are sure to be some intriguing events and significant new perspectives as a result. **To attune the cosmic energies in play:** •Embrace diversity; try something new; take a different approach to old issues; access the higher mind for solutions; look for inspiration and fresh ideas; connect with friends/community. Solutions and realizations can occur in an instant and at any time perhaps in odd or unusual ways! Humanitarian concerns and the Global family are a major focus. Groups, friends, neighbors and online communities are emphasized. **Qualities to develop/focus on:** •Connecting with your higher mind thus raising your frequency paving the way for new realizations and insights. Paying attention to your intuition and hunches. Opening to new perspectives resulting in a shift of priorities or direction. **What to be careful of:** •Being too "out there" or eccentric. Taking risks because you're bored or impatient. Being aloof or detached from your feelings. Getting mentally over stimulated which can be related to too much time on electronic devices, TV, etc. **What to be grateful for:** •New insights which may come in a flash. Seeing that you're being guided from within/above even when you can't see/feel it.

**What special opportunities to look for this month:** •Synchronicities, coincidences and flashes of insights that bring guidance, insights and messages. Considering new options especially those you wouldn't ordinarily. Innovative solutions can appear from nowhere! Discovering new pathways that move you towards your true potential and dreams.

**1st>4th~Balsamic Moon Phase** occurs 3+ days before the NM. It is the most mystical time of month making it easier to perceive gateways and portals. Use this mystical energy to tap into what is meaningful to you at a soul level. You may feel spacy/ungrounded. Intuition is stronger than usual. **4th~New Moon in 15°45' Aquarius at 1:04 pm PT** What is unique and unconventional is brought to life. New beginnings are at hand though likely to be in ways/areas you hadn't anticipated or expected. Consider that the Universe may have something better in mind for you than you'd thought. A beautiful sextile from Jupiter brings hope while opening doorways though they made need a push, meaning we need to do our part in order to benefit from this positive influence. Beginnings come from considering new options and staying open to new avenues and directions.

## **Connecting to Your Soul Group**

Being on a spiritual path can be lonely at times. You may experience being misunderstood or that you're not really seen or heard for who you truly are. Even though you may not be aware of it, on the inner planes you are connected to a group made up of souls who travel near you, not only in this lifetime, but also others and whom you share a similar vibration and feel accepted, supported and loved. \*In previous visualizations for February I've done one called "Your Soul Group." If you still have that you can do it this month as it resonates with the Solar energies. *This visualization was inspired by a dream I had several years ago.*
